WHY LEARN CPR ? After 1 minute, brain cells without oxygen begin to die. The ability of bystanders to perform CPR while waiting for the ambulance is critical to survival and positive patient outcomes.

YOU CAN GIVE A FRIEND OR FAMILY MEMBER A BETTER CHANCE OF A FULL RECOVERY

HEARTSAVER FIRST AID CPR AED is designed for anyone with little or no medical training who needs a course completion card in First Aid CPR and AED use to meet job, regulatory, or other requirements. This course can also be taken by anyone who wants to be prepared to act in an emergency. This course trains participants to give CPR, the use of an AED in a safe and timely manner, and first aid basics for the most common first aid emergencies.

Minimum Class Size

5 students

Maximum Class Size

25 Students
